## URGES RECEIVER FOR OHIO MINES CLOSED BY STRIKE

Findlay Lawyer Asks Supreme Court to Order Ouster Suit.

## ALLEGES THAT COMPANIES ARE VIOLATING CHARTER

Declares Court Has Right To Direct Operation By Receiver.

Columbus, Nov. 17.—George H. Phelps, Findlay lawyer, today asked the Ohio Supreme Court to direct Attorney General Price to begin ouster proceedings against Ohio coal mining companies organized under the laws of Ohio for failure to operate their mines and to have receivers appointed for them.

In his petition, Phelps said that mine operators are violating their charter by suspension of the mines since November 1 and that the court has the right to direct their operation under receiverships. Phelps' petition was not filed because not accompanied by the proper fee.

## ILLINOIS MINERS IGNORE COURT ORDER

Springfield, Ill., Nov. 17.—Soft coal miners in Illinois were idle again today in furtherance of the strike for higher wages and shorter hours.

The third week of the tie-up apparently found the mine workers in this state determined to stay out until assured of a satisfactory wage agreement, despite the order of their officials rescinding the strike call under court compulsion.

Some operators had held to the opinion that there might be a breaking away from the strike of a few miners with the opening of the present week, but early indications did not bear out this belief.

## FEW MINERS RETURN IN KANAWHA DIST.

Charleston, W. Va., Nov. 17.—In spite of predictions by leaders of the striking miners that the men would return to work today, reports reaching the Kanawha Coal Operators' Association this morning showed only a few miners added to the ranks of the active mines a week's list.

"The union officials seek control of their men," said J. M. Lamp, secretary of the district, "and the men are not going to be taken back by the union. The miners would return to work, but the union officials would not let them."

## MINERS AWAIT RES OF PARLEY IN CAP. AL

Chicago, Nov. 17.—While operators and union leaders had predicted resumption today of mining on a large scale in the bituminous coal fields of the country where more than 400,000 miners have been on strike for 16 days, only in West Virginia was there any confidence that "all the men" would be back at work during the day.

In the other large producing fields the men showed a disposition in most cases to await the results of the conference at Washington of operators and union officials over a new wage agreement before returning to work.

In the meantime a threatened coal shortage in the midwest has caused the regional coal committees to consider means of conserving fuel.

In Indiana an order prepared by the public service commission revising lightness nights and heatless days of war time is to go into effect tonight as a means of conserving coal supplies.

The railroad administration today took off a dozen local passenger trains on the Chicago, Milwaukee and St. Paul railroad here and at Milwaukee and it was said that further curtailment of railroad service both in the passenger and freight departments would result if coal supplies continue to be depleted. It was also asserted by members of the fuel commission that unless production is resumed on a large scale within a short time it will be necessary to withhold coal from non-essential industries.

## MARYLAND MINES ARE WORKING, REPORT SAYS

Cumberland, Md., Nov. 17.—There was a general resumption of mining in the upper Potomac and Georges Creek coal fields today according to statements of leading operators here. Ninety per cent of the striking miners returned in the upper Potomac region and 70 percent in the Georges Creek mines, they said. Between 8,000 and 10,000 miners were out in these two fields.

## STRIKE PICKETS ARE LED BY ORGANIZERS

Youngstown, Nov. 17.—After pickets had nearly disappeared about the steel plants here last week, the strikers were out in force this morning, it being estimated that 6,000 men filled the streets near the mill gates. For the first time since the strike began organizers themselves were in charge. A number of minor clashes took place, as a result of which three men were in the hospital but a riot of the streets was averted. Mill operation was somewhat increased.

## WHY DID SHE TAKE POISON?

Mrs. Alma V. Steane.

Suicide by poison, is the verdict of the coroner in the case of Mrs. Alma Vetsera Steane, who died in mysterious circumstances following the second Victory ball in London, England, on Armistice day. Mrs. Steane was the American wife of Capt. Anthony Steane of the British army and at the time of her death was at the height of a brilliant social career in London. Although she was only twenty-eight, Captain Steane was her third husband.

## TOTS GET PENNIES FOR CHURCH FUND

Infant Class of Maple Avenue Church Gather 2300 During Campaign—One Collects 1000.

More than 1000 pennies gathered by one five-year-old girl in the Maple Avenue Christian Union Sunday school, and 1300 more pennies gathered by her classmates, were among the contributions received Sunday afternoon at that church when the campaign to wipe out the church debt, was brought to a close. The total subscriptions amounted to \$300 by the pastor, Rev. E. D. Wickens declared that the round sum of \$1,000 would be reached by the time all subscriptions were received.

This amount will cut the church debt in half and will at the same time reduce the interest charge 50 per cent. The campaign started six weeks ago and the results exceeded the anticipation of the workers.

Rev. J. M. Lamp, former pastor of the church, now retired, spoke at the morning service, on "The Church, Its Origin, Progress, Persecution and Final Triumph."

Dr. L. Williams of Denison university spoke in the afternoon on "Passing It On" and in the evening on "The Personal Touch."

## COUNCIL TALKS OVER STATUS OF HUN SHIPS

Paris, Nov. 17.—The status of the Imperial and other German ships aggregating 170,000 tons, now in the possession of the United States was discussed by the supreme council today but no action was taken. Great Britain has claimed that the action of the United States shipping board in retaining the vessels violates the agreement in the council that they should be turned over to the British as soon as they had finished transporting American troops.

The council decided that the oil tank steamer Germany now is surrendering to be taken to the Fifth of North and entrusted to the guardianship of Great Britain.

## SAY JENKINS CONSPIRED WITH MEXICAN BANDIT

Washington, Nov. 17.—William O. Jenkins, American consular agent at Puebla was detained at the penitentiary for two hours after his arrest on a charge of collusion with the bandits who recently kidnapped him according to advices to the state department from Mexico City. He then was released without bail and is now restricted to his home.

Mexico City, Sunday, Nov. 16.—Dispatches from Puebla today assert that William O. Jenkins, American consular agent at Puebla, although technically under arrest charged with false statements in connection with his recent abduction by bandit leader, Federico Cordova, by order of the states attorney, is given freedom of the entire city with no bail required, the officers accepting his word he will not leave Puebla until court proceedings are completed.

Jenkins, following his arrest requested to be lodged in jail until the matter was finally settled but the officials refused. It is expected a preliminary hearing will take place Monday.

New York—Lieut. Maynard, "flying parson" expected to start his non-stop transcontinental flight within a week.

## RAIL UNION HEADS CONFER IN CLEVELAND

Cleveland, Nov. 17.—Heads of the four railroad brotherhoods met here today to consider Director General Hines' offer of overtime payment on slow freight service. They hope to be able to give an answer within a week.

Those attending the conference included W. G. Lee, of the trainmen; Timothy Shea, of the firemen and engineers; Warren S. Stone, of the engineers and L. E. Sheppard of the conductors.

Director General Hines has offered overtime payment in an unusual way, and the offer requires consideration for that reason, Mr. Lee said. Railroaders serve a day's pay for each 100 miles they make in eight hours. Most of them complete their runs in that time while those completing their runs in less time receive full eight hours pay.

Where more than eight hours is consumed railroaders have only been paid at the regular rate for eight hours and Mr. Hines' view is that this should be adjusted in fairness to slow freight men, Mr. Lee declared.

## CITY EMPLOYEES GO WITHOUT WAGES

Firemen and Policemen Have Had No Pay For Four Weeks—Department Heads Get Theirs.

Tonight's session of the city council promises to be a lively one for there are several matters coming up for discussion which may not be settled in caucus.

The deficiency ordinance will be introduced which provides for the issuance of \$15,377.30 worth of bonds to take care of the safety department until the first of the year, and also includes a deficit in the health department of \$1,600. There is a cash balance on hand to the credit of the safety department of \$1,300 and Auditor Nelson Dodd in a report to council estimated the deficit at the end of the year would be between \$18,000 and \$19,000. The legislature provided for the issuance of bonds for this year only and according to an opinion received by Auditor Dodd there will be no available funds for next year outside of that allowed the city through the budget commission. No bonds can be issued for a deficit next year, according to the state official.

Today is pay day for the police and firemen and there is no money for them. This makes four weeks that the men have gone without their pay and neither will there be a pay day the next two weeks nor the next four, but they may possibly receive their pay in six weeks, providing the deficiency ordinance passes and the bonds are sold. There are men in both departments who need their money, who do not like to ask for credit for the necessities of life and who will now be compelled to do so or else borrow money, pay interest on same and give an order on the city for security.

In the meantime heads of departments and their clerks are not worrying for they issue vouchers to themselves, cash them, and let the firemen and policemen wait for their salaries, which are already a month overdue.

Council will also provide for increasing the mayor's salary this evening by passing an ordinance to that effect. However there is some difference of opinion as to the amount, a number being in favor of making it \$3,000 while others state they will only support a measure for \$2,500. Mayor Atherton states that the office has paid \$3,000 with the fees and considering the shrinking value of the dollar, \$2,000 is small enough salary for a city the size of Newark.

## PRESIDENT WILL NOT ACCEPT PACT WITH AMENDMENT

If Senate Adopts Lodge Reservations He Will Pocket Treaty.

## SEN. HITCHCOCK GIVES OUT MR. WILSON'S VIEWS

Democrats Will Ask Ratification of Treaty Without Reservation.

Washington, Nov. 17.—The foreign relations committee reservation excluding the United States from any responsibility in regard to disposition of the German colonies was rejected today by the senate.

The reservation, which was the first of the committee group to be defeated, failed to command the support of the mild reservation Republicans and was opposed also by some of the Republican irreconcilables in addition to the administration Democrats.

Washington, Nov. 17.—President Wilson will pocket the peace treaty if it contains the Lodge reservations, he told Senator Hitchcock at a conference today at the White House.

"The president has read and considered the Lodge reservations," Senator Hitchcock said, and he considers them a nullification of the treaty and utterly impossible.

The program outlined by Senator Hitchcock after he had seen President Wilson last week will be carried through in the senate, Mr. Hitchcock said. This complete defeat of the ratification resolution with the Lodge reservations attached and the offering of a resolution for ratification without reservations. With the defeat of the resolution a dead lock would follow and a compromise sought.

Senator Hitchcock was with the president for an hour.

"I find the president is very much improved since I saw him last," the House. "He looks better, talks better and is much more aggressive. I find that he has read and considered the Lodge reservations and that he considers them a nullification of the treaty and utterly impossible."

"Did the president tell you what his opinion would be in the event the Lodge reservations are accepted by the senate?" he was asked.

"The president will pocket the treaty," was the reply.

"Even if reservation 15 is stricken out?"

"Yes, that would make no difference in the president's decision."

## SUPREME COURT HEAR DRY APPEAL

Arguments On Decisions of District Courts Relating to Validity of War Time Prohibition.

Washington, Nov. 17.—The supreme court agreed today to hear arguments next Thursday on appeals from two decisions rendered last week in New York, upholding the constitutionality of the war time prohibition act. A similar appeal from the Kentucky decision declaring the act unconstitutional will be heard on the same day.

Binghamton, N. Y.—Mr. and Mrs. Harold Hess and two children burned to death in apartment house fire here.

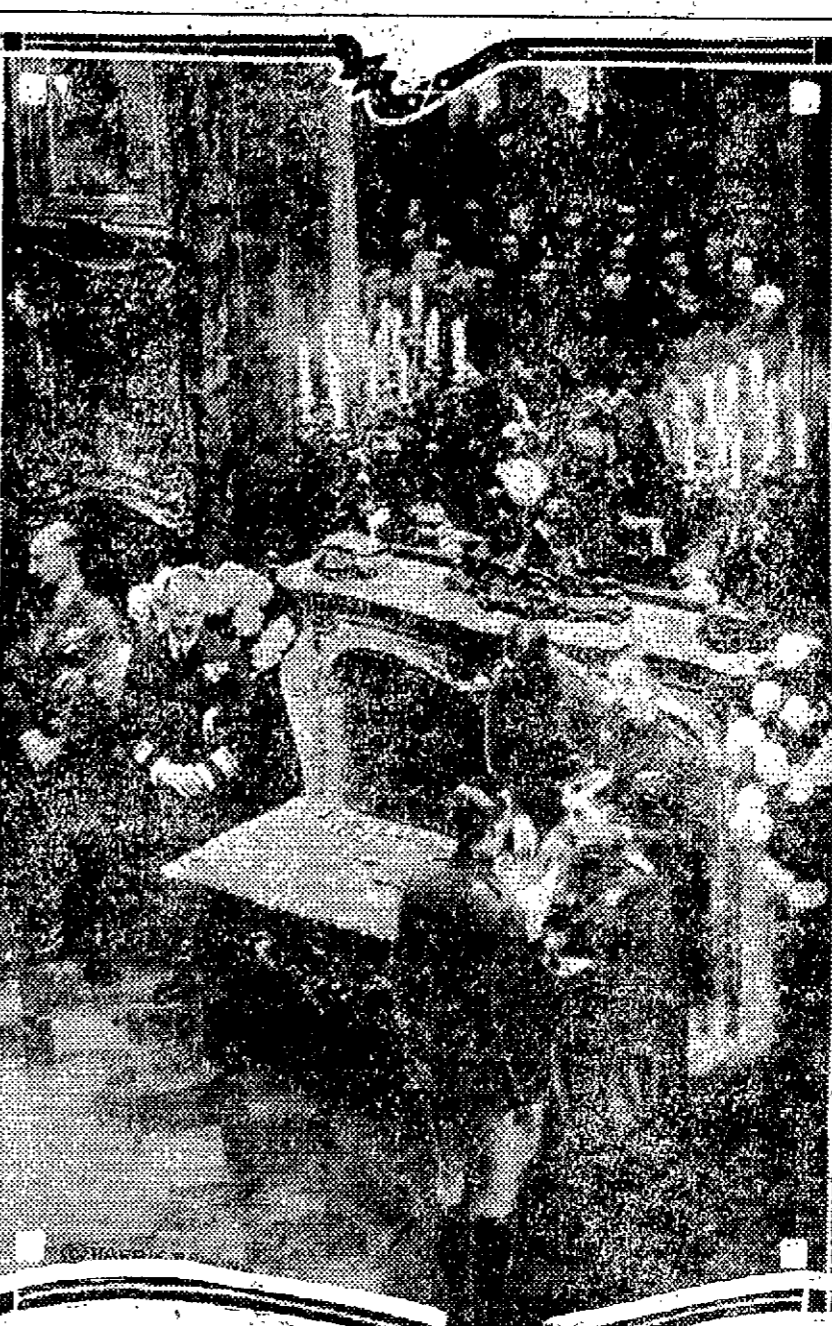

## FIGHTING REDS ON THE PACIFIC COAST

Jack Sullivan.

Jack Sullivan, ex-service man and chairman of the anti-American propaganda committee of the American Legion, is one of the leaders in the fight against Red in the Pacific northwest. He hails from Seattle. At the recent convention of the American Legion he introduced several resolutions aimed against Bolshevism.

## PRINCE DECORATES AMERICAN FIGHTERS.

During his stay at the Belmont house in Washington the Prince of Wales decorated a number of American fighters. The photo shows him engaged in the pleasant task. The faces at the top are reflected by a mirror from the opposite side of the room.

## MARRIED STRANGERS.

The opening chapter of "Married Strangers" a delightful story by Frances Duvall appears on page four of today's Advocate. Don't miss it.

## JUDGE CROW DECLINES SUPREME JUDGESHIP

Columbus, Nov. 17.—Judge Phil M. Crow, of Kenton, today declined the appointment to the Ohio supreme court bench tendered to him by Governor Cox on Nov. 11. The decision on the part of Judge Crow to remain on the court of appeals bench in the third district was a surprise to his friends here, as it was believed he would accept the position made vacant by the resignation of Judge Maurice H. Donahue to accept the federal judgeship appointment.

Governor Cox has not indicated whom he will now offer the judgeship to.

## WOULD COMBINE 2 DIRECTORSHIPS

Ordinance Ready For Tonight's Meeting To Put Safety and Service Depts. Under One Head.

An ordinance merging the office of director of public safety with that of the office of director of public service will be introduced in the city council this evening by Councilman Lester Newkirk, at the request it is understood of Mayor H. A. Atherton, who is desirous of saving the city the expense of operating the two directorships when it is believed that one will suffice.

The ordinance also provides that the salary of the safety service director shall be \$200 per month.

If council passes the ordinance and it becomes effective it means that either Service Director J. Edwin Wilson or Safety Director Lee S. Pemberton will lose out. It will be up to Mayor Atherton to pronounce sentence. It is also rumored in official circles that if present plans mature which are now under way one of the superintendencies in one of the departments may be abolished, but how this could be brought about with any degree of expediency or operation has not yet been figured out.

At any rate there promises to be a lively old time at council meeting tonight and as it is an open session spectators seats are liable to be at a premium.

## TOLEDO STILL WALKS DOHERTY PLAYS SAFE

Toledo, Nov. 17.—Toledo has entered on its ninth day without street cars as the result of action of Henry L. Doherty in removing the cars to Michigan after the people approved an ouster ordinance. Council summoned by the Toledo Railway and Light company chief today began conferences with city officials on two ordinances it is planned to submit to the people, one for municipal ownership and the other providing for a franchise on the Taylor cost plus plan. Doherty insists on assurances that one of these propositions will be adopted before he will restore car service.

Chicago—Seven robbers break safe of Standard Oil company of Indiana and escape with \$3,000.

## STEALS TRAIN TO COME TO NEWARK

Ex-soldier Tires of Waiting For Train to Start From Hillsboro and Takes Charge of Engine.

Saying he "had an engagement at Newark and couldn't wait for the regular train, a soldier thought to be insane, stole an entire train at Hillsboro Sunday and endeavored to make the trip.

The B. and O. train, consisting of engine, baggage car and coaches, had arrived from Blanchester at noon and was waiting to make the return trip at 3 o'clock. The crew left the train at 2 o'clock. The man was taken into custody.

Efforts are being made to identify him. He is said to be John or Adam Barnes. Barnes was seen in the train when it pulled in at noon. He made the run at full speed and with the whistle tied down. There were no passengers on the train.

## TRAIN HITS TRUCK FOUR WORKMEN DEAD

Philadelphia, Pa., Nov. 17.—Four Hog Island ship yard workmen were killed and seven others injured today when a motor truck on which they were riding to work was struck by a train at a grade crossing. The accident was due to the heaviest fog experienced here in many years.

On the Delaware river two ferry boats collided in midstream and a third ferry boat crashed into a tramp steamer lying at anchor. No serious damages resulted from either collision.

## LAKE TRAFFIC CLOSES.

Cleveland, Nov. 17.—Passenger boat traffic between here and Buffalo ended today. The Cleveland and Detroit season closes at the end of the month.

## D'ANUNZIO CONTROLS ENTIRE DALMATIAN COAST

Fiume, Sunday, Nov. 16.—Gabriele D'Annunzio's latest exploit appears to have made him master of the entire Dalmatian coast. It secured the adherence of Admiral Millo, commander of the Italian occupation forces in Dalmatia, thus giving D'Annunzio a continuous command from the Austro-Italian armistice line north of Fiume, southward to Ragusa, just to the north of Cetina, covering all the approaches to the Dalmatian coast. Four warships including a dreadnaught and four torpedo boat destroyers have been added to the D'Annunzio naval command, giving him a formidable weapon with which to maintain his present position.

It is announced D'Annunzio will occupy all of Istria, including the sections Foreign Minister Tittoni proposes shall comprise an independent state.

D'Annunzio returned here Saturday night from his expedition to Zara on the Dalmatian coast. He left the garrison at Zara commanded by one of his officers.

New Orleans—Newspapers here increase street sales price from 2 cents to 3 cents.

## EX-SERVICE MEN TO RAID CABIN HOUSING I. W. W.

Retreat of Radicals Guarded While Reinforcements Come.

## BELIEVE THREE WHO SHOT AT MARCHERS ARE HIDING

Member of Posse is Missing and He Is Believed to Be Dead.

Centralia, Wash., Nov. 17.—Former service men and woodsmen, members of a posse attempting to arrest alleged I. W. W. awaited reinforcements from here before attempting today to storm hunters' cabin, on the headwaters of Hanford creek, 18 miles northeast of here in which it was believed the men they sought had taken refuge.

Since Saturday night possemen have guarded all outlets from the dense woods surrounding the cabin, some of which is believed to lie the body of John Haney, a possessor missing since searchers and the pursued men exchanged shots late that afternoon. Too few in numbers to take the cabin by storm, though its defenders are thought to number but three, the former service men sent out a call for additional forces.

These were sent from here but owing to the difficult nature of the country to be traversed, it was thought the reinforcements would arrive in time for an attack late in the day. In the meantime Captain Lloyd Dysart, commanding former service men engaged in rounding up suspected I. W. W. in this part of the state, believes there are Bert Elard, a man named Hansen or Lough, and one other, in the cabin. A tenfold of firing the shot which killed Warren Grimm, marcher, in the attack on an armistice day parade. A truce existed yesterday, so far as the campaign against radicals in the northwest was concerned, on the basis that radicals were reported and arrests were few.

## 37 RADICALS ARRESTED BY FEDERAL AGENTS

Fairmont, W. Va., Nov. 17.—Thirty-seven alleged radical agitators arrested in this region during the past three days by agents of the department of justice and county officers, are in the Marion and Monongahela county jails today awaiting disposition proceedings, which according to federal authorities will be started here and continued in the district court at Martinsburg. Twelve of the prisoners were taken in raids late Sunday at Downs and Farmington.

## RUSSIANS LEAD I. W. W. IN MINERS' CAMPS

Morgantown, W. Va., Nov. 17.—Miners in the northern counties of West Virginia were urged to join the I. W. W. because it is the "only revolutionary organization that is hated by the capitalist class." They were asked to join an "initiation" for a monthly dues of 50 cents, but if they desired they could transfer their membership from one "local" to any other "local" by simply getting in touch with the I. W. W. delegate in the camp where they might happen to be.

This interesting information was found in the mass of I. W. W. literature seized by agents of the department of justice when they raided the headquarters of the organization on Scott's Run near here and captured a dozen of the leaders last Saturday.

The Scotts Run local, officially known as Industrial Union No. 900, had its most important membership among the Randall mine workers where only 55 of the 125 miners were American citizens. Meetings were being held every Sunday afternoon in the forest near the mine, always under the leadership of some Russian miner. Other meetings were held at a number of other points in the district at the same time, it being the policy of the organization never to unite in great gatherings all the members in the region.

## ARRESTS FOIL ATTEMPT TO DISRUPT INDUSTRY

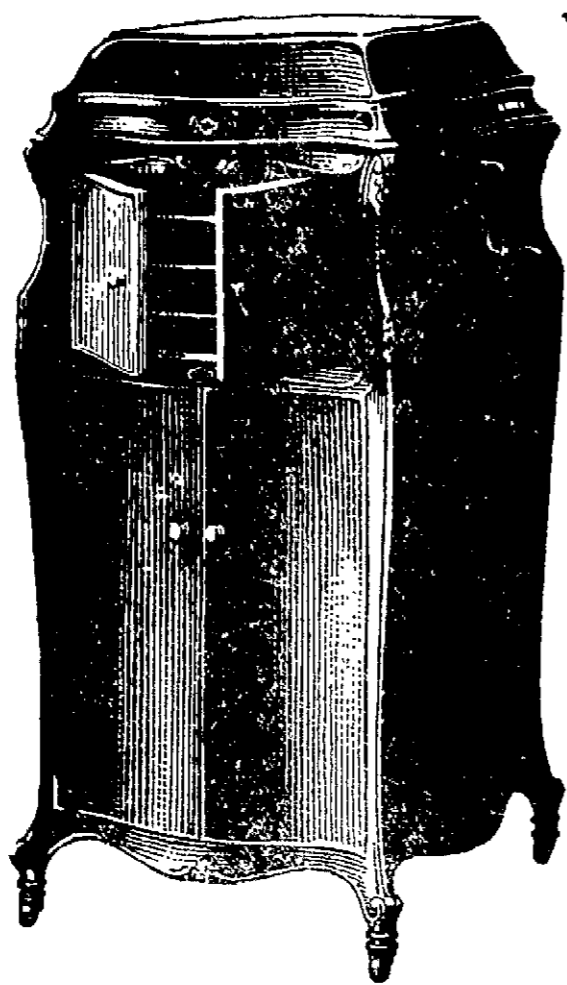

Akron, Nov. 17.—With the arrest of 15 alleged "anarchy" propagandists, today Chief Agent H. W. Kage of the local department of justice announced that he had sprung a trap whereby attempts to disrupt Akron factories, including rubber plants, was foiled. Agents of the department of justice worked for weeks alongside the alleged red missionaries. They gained sufficient information, the officials said, to assure the speedy deportation of all the men taken today. Fifty alleged red workers are being held here.

## MILK PRICE BOOSTED CONSUMERS ON STRIKE

New York, Nov. 17.—Milk drivers, whose recent threat of a strike won them an increase of pay and sent milk prices up, found a "consumer strike" this morning when they made their early morning deliveries. Hanging on doors of many homes and apartments were signs reading:

"Milk strike—no milk wanted here until Thursday!"

"The strike was called by the community councils of National Defense and 'strikers' who observe the recommendations of the council will abstain from the use of milk on Mondays, Tuesdays and Wednesdays of every week until the price of that commodity is lowered."

## H. S. GIRLS WILL GIVE LIBRARY AID

Members of Thalian Literary Society Will Conduct Tag Day Saturday For Library Benefit.

Members of the Thalian Literary society of the Newark High school will conduct a tag day Saturday for the benefit of the Newark Public Library. Plans are being completed this week to so conduct Saturday's drive, that the sum raised last year, \$800, will be equaled or increased.

It is probable that a more systematic method of soliciting donations will be adopted this year to supplement the donations received on the street.

With the \$800 raised last year, nearly 300 new books have been purchased, magazines were bound, and old books were repaired, besides some new equipment being added.

That the donation was a great help to the library is indicated by the statement of the librarian, Miss Gertrude Sook, who declares that the question of a continuous book supply has always been an important one in the operation of the library.

"The history of the Newark Public Library is an interesting story of growth through the generosity of friends," Miss Sook said. "From its earliest struggling days unto the present time there has been a goodly number with unwavering faith, and loyal support for every crisis."

"The question of a continuous book supply has been one of the gravest problems—for books wear out, must be mended and replaced, and additions made regularly if the library is not to defeat its own ends. For several years the city has been met again and again in the way of an appropriation for actual running expenses, salaries, etc., but we had no definite 'book fund,' and the need in that direction is ever-present. It has been met again and again, however, by generous gifts from individuals, from the schools and the clubs, and from other organizations, and these helps over the hard places have never failed of appreciation."

"Last year the members of the Thalian Literary society, of the high school, advertised and conducted a 'tag day' for the benefit of the library. Their appeal met with splendid response from the public. \$320 was received and has been expended for the improvement and enlargement of our book supply. As the same society is planning to help us again in the same way, it seems well to publish a report of what has been accomplished through the previous donation."

"A new section for the card catalogue has been purchased, also the following books: 104 High school reference, 104 juvenile, 91 adult fiction, 48 adult class, 64 Ohio teachers' reading circle, 66 magazines bound, 208 new volumes rebound."

## MAYOR SEEKS HELP TO CONDUCT ARMY STORE

Mayor H. A. Atherton is seeking the services of three able bodied laboring men to unload goods when the three cars of army supplies arrive this week, probably Wednesday. Those desirous of securing a job should apply at the mayor's office.

The mayor has engaged ten capable salesmen to wait on customers and three men to take charge of the cashier's desk. The store will be set up and ready for opening the day after the goods arrive. No purchases will be wrangled up and customers are advised to bring along baskets.

There will be a variety of goods and this consignment will be sold at lower figures than heretofore. Cans of vegetables, pumpkins and like commodities will bring six, eight and nine cents per can. Then there will be extracts and cornmeal, carina, flour, macaroni, pickles, clam chowder and mock turtle soup, peas of all kinds, blankets, rubber boots, underwear, gloves, combination overalls, socks, bath and rubber towels.

The mayor stated this morning that due notice of opening day will be given and that the crowd's will be handled as expeditiously as possible.

**BUTTER HITS TOP PRICE.**  
Chicago, Nov. 17.—Highest prices ever known for butter were reached in Chicago today, 70 cents a pound for creamery extras, wholesale. This same grade never went above 67 1/2 during the world war. Receipts of butter here of late have been much less than a month ago.

**BURGLARS LOOT SALE.**  
Toledo, Nov. 17.—Burglars who last night took \$2,000 worth of Liberty bonds and a quantity of cash from S. Y. Brigham Motor company offices, used a sledge hammer to pound the combination from a safe.

**GOODYEAR INCREASE CAPITAL.**  
Columbus, Nov. 17.—The Goodyear Tire and Rubber company of Akron today increased its capital stock from \$100,000,000 to \$200,000,000. The company sent the secretary of state a check for \$100,000 in connection with the increase.

## ONE DEAD; FOUR ILL; ATE POISONED BUTTER

West Salem Ohio, Nov. 17.—Mrs. Sarah Haverstock is dead and two other women and two men are seriously ill at an Ashland hospital today as a result of eating poisoned butter at a dinner given by the dead woman at her home here Friday. Physicians hold out little hope for the recovery of the two men while the women are reported to have an even chance for recovery.

Shortly after the dinner each of the five complained of feeling ill and a physician ordered them removed to the hospital where Mrs. Haverstock died last night.

Chemical tests proved that the butter, which had been made by Mrs. Haverstock, contained a poison believed to have been in the milk from which it was made. Physicians believe the cows, owned by the Haverstock family, had eaten a poisonous weed and that the deadly juice was contained in their milk. The victims in addition to Mrs. Haverstock are:

Mr. and Mrs. S. A. Reed, Frank Cowell and Mrs. Joseph Crosby.

## STOCKS BREAK AGAIN AFTER COURT OPINION

New York, Nov. 17.—The stock market was subjected to another sharp break at noon today. Heavy selling was precipitated by announcement that the United States supreme court had decided against the Southern Pacific company in the suit involving 6,000 acres of valuable oil lands in California.

Southern Pacific broke on extensive sales from 106 1/2 to 101 1/2 in less than 10 minutes. The stock closed last week at 108 1/2.

Union Pacific, which had been almost the only strong feature of the morning, also relinquished a large part of its 5 point advance.

The entire list broke with Southern Pacific, although some stocks held over their extreme losses of the morning when steel, oils, motors and equipments were 3 to 15 points under last week's final quotations.

## CONDUCTORS ELECT OFFICERS FOR YEAR

The Order of Railway Conductors held a meeting at their quarters in South Park Place yesterday afternoon with a large attendance and transacted considerable business, including the election of officers as follows:

Chief Conductor—J. H. Menor.

Ass't. Conductor—H. D. Whiteford.

Secretary and Treasurer—D. H. Murphy.

Senior Conductor—A. E. Wilson.

Junior Conductor—John Thornton.

Inside Sentinel—John Doyle.

Outside Sentinel—William Lamb.

Trustees—Elmer Hukill, John Richardson and D. C. Scheffler.

Local Grievance Committee—Elmer Hukill, E. C. Copper and Al Will.

Membership Committee—J. H. Menor, Harry Whitehead and Charles Mort.

Legislative Committee—D. H. Murphy with John Doyle alternate.

## STRUCK BY AUTO LEG IS BROKEN

The condition of Worth Criswell, the eight year old son of Mr. and Mrs. O. K. Criswell, who suffered a broken leg Saturday afternoon when he was struck by a machine, is better today. The boy was crossing Hudson avenue from in front of the First Presbyterian church. He passed ahead of a team and did not see a machine which was driven out from behind the buggy.

The boy was taken into Dr. H. J. Davis' office nearby and it was found that the right leg was broken above the knee. Bradley's ambulance took the boy to his home in Flory avenue. The machine is said to have been driven by a man named Holmes from Vanatta.

## LIGHT OPERA NEXT ON HIGH SCHOOL COURSE

The Davies Light Opera company will present the operetta, "Olivette" at the high school auditorium tomorrow evening as the next number on the lecture course. There are no seats available except for those holding advance reservations.

## BURGLARS GET CLOTHING IN THORNVILLE STORE

Thornville, Nov. 17.—Rutledge Bros. clothing store, a branch of the Newark establishment, was ransacked by burglars last night and several overcoats, a number of hats and caps, suit cases and traveling bags were reported missing this morning by the manager, Frank Caine, when he opened the store. The burglars effected an entrance by sawing out a panel in the rear door and a great deal more of the stock may be found missing when an inventory is taken.

It is believed that the thieves came to this village on a train Sunday night and remained in seclusion until near midnight when they started to work and after securing an entrance into the Rutledge store escaped with the goods in an automobile as the Ford touring car of Dock Carrier was stolen some time during the night.

## PRESIDENT SPENDS HOUR ON LAWN IN CHAIR

Washington, Nov. 17.—President Wilson was taken down stairs in a wheel chair today and rolled out on the White House lawn near the south porch where he basked in the sunshine for a short time. This was the first time he had left the White House since his return from the western tour during which he was taken ill.

Those who saw the president said he seemed bright and cheerful and apparently was "full of fight" as the result of the senate action on the peace treaty.

**OIL DIVIDEND DECLARED.**  
Findlay, Nov. 17.—Directors of the Ohio oil company today declared a regular quarterly dividend of \$1.25 per share and an extra dividend of \$4.75 per share payable December 31 to stockholders of record November 29.

New York—Name of Admiral Sims missed at Irish meeting.

## WHAT OHIO FOLKS SAY

Minerva, Ohio.—"I was suffering most severely from a pain in my back. Thinking that it came from the kidneys I got a bottle of a well-known kidney medicine, and used it with apparent relief, but soon the pain began again. Then I got a bottle of Dr. Pierce's Anuric Tablets and took them. In the box I found literature saying the Specialists at Dr. Pierce's Invalids' Hotel would diagnose a case free, or something to that effect, so I wrote immediately and learned from them that it was rheumatism (due to uric acid in my system) instead of kidney trouble. I followed their advice and between three and four weeks had relief. I know, too, from the experience of others with whom I am acquainted that they also have been benefited by Dr. Pierce's medicines."—HARRY E. SUTTON, Minerva, Ohio.

Anuric always benefits and often cures the cause of kidney disease, as well as rheumatism and gout. Sold by druggists, or send 60 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., or 10 cents for trial package.

Sandusky, Ohio.—"I have taken Dr. Pierce's Anuric and found it very good for kidney ailments and bladder weakness. This Anuric is all that is claimed for it, and I can speak very highly of it as a medicine for the above ailments."—Z. S. RICKARD, 1111 N. Depot St., Fremont, Ohio.

Fremont, Ohio.—"I can highly recommend Dr. Pierce's Pleasant Pellets to any one suffering with sluggish liver and constipation. I used to be subject to this condition and I found the 'Pleasant Pellets' to give better satisfaction and results than any other medicine I ever took. They are mild and easy in action."—Mrs. Joe Young, 521 May St., N. W.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bed time.

Thousands take them every night just to keep right. Try them. 10c and 25c.

## RED CROSS ASKS \$500,000 IN OHIO

Christmas Seals Will Be Placed On Sale Soon to Aid In Fight Against Tuberculosis.

Columbus, Nov. 17.—Fifty million Red Cross Christmas seals—enough to reach from Ohio to Denver, Colorado, or to lay a border around the state of Ohio if placed end to end.

That is what the state of Ohio has to sell in the nation-wide campaign December 1 to 10 during which time the National Tuberculosis association expects to dispose of more than 650,000,000 Red Cross seals in the entire country.

Fifty million Red Cross seals sold means \$500,000 raised to fight tuberculosis in Ohio. "But the campaign is not merely a money-raising effort," explained Dr. Robert C. Patterson, campaign secretary today. "It is a health crusade—a campaign of education to bring before the people the terrible toll which tuberculosis takes each year," he added.

Ohio's quota of 50,000,000 seals is just seven times the greatest number of seals ever sold in this state and means ten seals per capita. In other words every man, woman and child is asked to contribute the small sum of ten cents toward the purchase of seals. The seals, as has been the custom, may be used to stick on the backs of envelopes and Christmas packages, carrying a message of cheer and hope to all parts of the world.

According to Dr. Patterson, Ohio's quota is seven times larger than ever before because the selective draft pointed out that it was necessary to put forth much more than seven times the previous effort, in order to effectually combat tuberculosis.

There are eight district chairmen, all well known in health work. They are: Dr. C. D. Selby, Toledo; Dr. R. H. Bishop, Cleveland; Dr. C. B. Diles, Sandusky; Dr. J. C. Magerty, Columbus; Dr. Josephine L. Pierce, Lima; Dr. A. C. Bachmeyer, Cincinnati; Dr. C. E. Robbins, Chillicothe, and A. A. Gibson, New Philadelphia.

In addition to these managing officers there is an educational committee made up of prominent active Ohio newspaper men. John T. Bourke of Cleveland, is chairman. The other members are: Lucas J. Bascher, Toledo; E. C. Burkhardt, Dayton; E. C. Hopwood, Cleveland; James W. Paulkner, Cincinnati; W. A. Campbell, Lima; George E. Freese, Canton; Joseph Garrelson, Cincinnati; Warren C. Martin, Marion; N. J. Harness, Marietta; Charles L. H. Long, Newark; C. C. Lyon and Don Martin, Columbus; Egbert Mack, Sandusky; S. G. McClurg, Youngstown; G. W. C. Peck, Chillicothe; George V. Sheridan, Springfield; Charles D. Simers, Steubenville, and H. E. Taylor, Portsmouth.

Headquarters of the Ohio Red Cross Christmas Seal campaign is at 33 South Fourth street, Columbus, Ohio.

**What Men Do Not Confess.**  
Some things men really confess, and other things they do not. No one will confess that he is a fool or without understanding; but quite the contrary, you will hear all men saying, I wish I had the fortune equal to my understanding. A man will not readily confess that he is intemperate; and that he is unjust he will not confess at all. He will by no means confess that he is envious or a busybody. Most men will admit that they are compassionate. What, then, is the reason? The chief thing is inconstancy and confusion in the things that relate good and evil. They do not at all confess the things that are offenses against society.—Epictetus.

No Worry About Coal There.

A considerable portion of New Zealand is volcanic, with apparently only a thin crust between the surface and the fires of the center of the earth; with geysers, hot springs and boiling pot holes in countless numbers. These last are often used by the case-loving Maoris as pots in which to cook their fish, pork and potatoes. In many districts it is never necessary for them to light a fire. The hot pools vary much in temperature, ranging from just enough to warm the water for a delightful bath, to that of boiling point. They are of unknown depth, probably bottomless, boiling today the same as ages ago after the continent was wrecked, and when only these few islands were left.

Considered as a Contract.

A certain business man is of the opinion that he has an exceedingly bright office boy, and nothing pleases him better than to tell how he acquired the youngster's services. A notice had been posted in the office window, which read as follows: "Boy wanted about fourteen years." A lad of that age, with little that was prepossessing in his appearance, came into the office and stated that he had read the notice. "So you think you would like to have the position?" asked the merchant patronizingly, as he gazed at the lad over the rim of his spectacles. "Yes, sir," was the reply. "I want the job, but I can't promise to keep it for the full fourteen years."

Study of Ancient Art.

The study of ancient art has come gradually to be regarded in the light of twofold usefulness—as a study leading to an understanding and appreciation of the purpose and meaning of beauty in art; as a necessity to any student wishing to get a firm grasp upon, and a really liberal knowledge of history. The documents of history that have not been tampered with and the records that have not been changed are the monuments of bygone art. . . . The study of ancient art when focused upon the laws governing the expression of beauty as it appears in the works of men, is a corner stone in the building of culture.—Alfred M. Brooks.

At any rate, the fellow who jumps from a frying pan into the fire is assured of a warm welcome.

## IF MILADY MUST BE "SUITED" THIS YEAR, HERE'S HOW

This attractive tulle suit of green duvetyn with its trimming of gray squirrel fur is a smart offering for the woman who prefers a suit for the cold weather. This model is suitable for afternoon and morning wear and the woman who has an enclosed car, as well as the woman who rides in street cars, will find such a suit far more comfortable than the rather cumbersome fur and cloth top coats.

## OHIO FAIR MEN MEET NOV. 24-25

Licking County Fair Officers Will Attend Session to Be Addressed By State Officials.

The annual convention of the Ohio Fair circuit will be held in Cleveland Monday and Tuesday, November 24 and 25 at the Hotel Statler, and an interesting program for the two days' sessions has been prepared by the president, A. P. Sandies of Ottawa, and the secretary, A. E. Schaffer, well known newspaper man and county auditor of Auglaize county. The latter, who has devoted the greater part of his life to the promotion of better county fairs, sends special invitation to all members of the Licking County Agricultural society board of directors to be present and assures them a good time as well as an instructive meeting.

The delegates and visitors will be welcomed by Mayor Harry L. Davis and the response will be by W. E. Shaw, secretary of agriculture of Columbus. Harvey C. Smith, secretary of the state, is one of the speakers on the program. A banquet will be served Monday evening at 6 o'clock at the Statler and a stunt program has been arranged for the entertainment of the guests.

Delegates from the local board are President M. C. Harter of the board of directors, Harry D. Hale, secretary, and O. G. Warrington, treasurer.

Properties of Metals.

Perhaps the most interesting metals are sodium and potassium. They are usually mentioned together because they act in almost the same way. If a piece of either is placed on water it does not sink, says Boys' Life, but spins over the surface and often, in the case of potassium, bursts into flame. After the metal has dissolved in the water, it will be found to be soapy. If the metal is placed on water colored with red litmus, the water will turn blue. If the metal is placed in pure concentrated sulphuric acid, nothing will happen, but if a drop of water is added there will be a violent explosion.

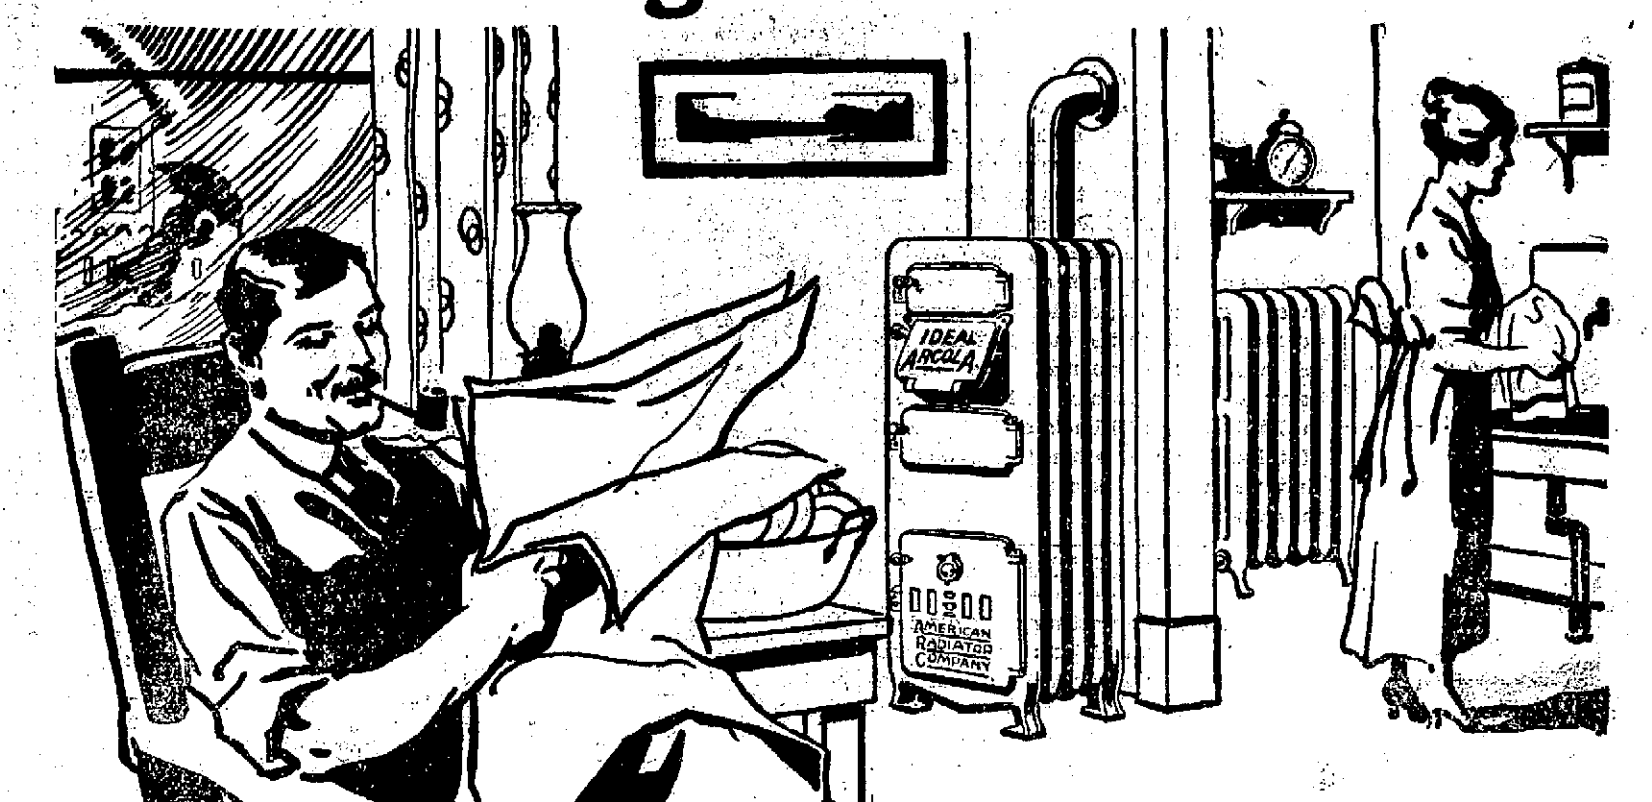

It Surprised Her.

One of the domestic pets in a certain English country house was a tortoise. As his time for hibernating drew near, he selected a quiet corner in the dimly-lighted coal-cellar, and composed himself to sleep. A new cook was appointed soon afterwards. She knew not tortoises. In a few months, with the lapse of time, the tortoise woke up and sallied forth. Scarcely soon broke the kitchen's calm. Entering that department the lady of the house found the cook gazing in awe-struck wonder, and exclaiming, as with unsteady hands she pointed to the tortoise: "My conscience! Look at the stone that I've broken the coal with all winter!"

These Balance Men.

I profess no special partiality for any critic, who, holding balance in hand, weighs eagerly whatsoever of learning comes to his counter. I question whether he is not taking less of the quality of the wares, than of the fashion of his scales, never questioning their accuracy nor his own levity. Still it must be admitted that these balance men are not without their usefulness, being convenient for appraising market values.—A. Bronson Alcott.

## New IDEAL-Arcola Radiator-Boiler

Puts IDEAL HOT WATER HEATING comfort at low cost in cottages, flats, or stores, with or without cellars

The IDEAL-Arcola takes the place of a parlor stove. But a stove wastes much of its heat up the chimney, whereas the IDEAL-Arcola is water-jacketed, and conveys its heat by hot water circulation through pipe-connected AMERICAN Radiators stationed in the adjoining rooms. Every bit of the big volume of heat developed from each pound of fuel is therefore made useful in keeping ALL the rooms uniformly, healthfully warm. There is no coal-waste. The IDEAL-Arcola does not rust out or wear out—will outlast the building—is a genuine, permanent investment!

Shipped complete ready for immediate operation

The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. The Arcola is placed in any room that has a chimney connection. No running to cellar. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms.

Cleanly heating—healthful heating—free from fire risks!

Unlike stoves, there are no coal-gas leaks into the living-rooms. The IDEAL-Arcola delivers the soft, radiant warmth of hot water—not the dry, burnt-out atmosphere of stove heating. There is no fire risk to building—no danger to children—fire lasts for hours! The Arcola burns hard or soft coal, coke, gas, or wood. Brings cost of heating down to the lowest notch—and gives IDEAL comfort.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Write today

## THE PEACE TREATY.

Close followers of the fight in the senate against the Treaty of Peace, and especially the League of Nations covenant, assert they can now perceive the rift within the Lodge lute, and predict considerable trouble for the titular leader of the league opponents once his reservations have been agreed to. The Lodge plan, as is well known, is to lend the treaty and covenant with every reservation possible that would mean the death of the League if adopted by the senate, then to await the defeat of the Treaty at the hands of its friends who decline to stultify themselves by voting for its camouflaged death, and finally to place the blame for the failure of the Treaty to pass upon its friends.

All the Republican senators, including the "mild reservationists," are bound by a pledge to vote for all the Lodge reservations and then for the resolution of ratification which will embody these reservations. After that they are free because Senator Lodge has an impression—which many Washington political observers consider a misapprehension of the situation—that if his ratification fails of passage any attempt at resuscitating it will be futile.

The unswerving supporters of the Treaty and the League have announced that they will not be dragged into voting for a resolution of ratification that is intended to kill the Treaty in effect, but that having voted against it to the extent of at least one-third of the membership of the senate they will insist upon a chance to vote for the treaty unamended and without reservations, and to make Senator Lodge and his temporarily aligned phalanx either vote for or against it. It is unquestionable that both the Lodge and Hitchcock proposals will fail of the necessary two-third vote. Then will come the real time of compromise when ratification of the Treaty will be possible because the "mild reservationists," none of whom desire to see the Treaty killed, will then be released from the Lodge promise and can combine with the administration forces that are seeking a ratification that will protect the United States and carry out this country's agreements with allies for the future peace of the universe.

The impression has been spread broadcast by certain Lodge lieutenants that the Democrats rejected reservation proposals tendered by the "mild reservationists." It is stated authoritatively that no reservations ever were submitted to the administration as a compromise despite efforts to secure that action.

More than four months' time has been killed, chiefly by open or secretive opponents of the Treaty, and Senator Lodge showed no signs of a desire for speed until he secured the pledge of the "mild reservationists" to stand by its committee reservations in order that public opinion might cease to pillory the opposition for dilatory tactics. Then he desired to shut off debate. A few days of that and then apparently some one threw a monkey wrench into the machinery as it halted and long-winded senatorial league haters were called upon to kill time until the machinery could be patched up. But when Senator Hitchcock endeavored to have a cloture rule passed restraining unbound debate on the Lodge reservations, great Republican opposition arose, and aided by a complaisant presiding officer, Senator Cummins, the Hitchcock motion was tabled. Although Senator Hitchcock had retained the floor it was taken from him in order that Senator Lodge might make his tabling motion.

Washington observers are certain

that when Senator Lodge, having witnessed the defeat of his straggling reservations to the treaty attempts to prevent a record vote against the document as it came from Paris, or with reservations approved by President Wilson, the "mild reservationists" must vote with the administration forces for a chance to formulate a ratification resolution that two-thirds of the senators can agree upon. This means that it will be possible to ratify the treaty in the regular session of congress, which begins Dec. 1.

A new alignment of the "irreconcilables" has appeared in the treaty fight, not openly but the daily meetings of the quartet have attracted sufficient attention to this faction. The watchword is "The Peace Treaty shall not pass at the special session" and it is a combination that seems likely to cause Senator Lodge additional trouble. Senator Borah is the only national figure among the quartet, the others being Senators Gronna of North Dakota, McCormick of Illinois and France of Maryland, and it is considered obvious that the Idahoan is controlling all the movements.

## HOLIDAY TRADE.

It would be interesting to know how much of the annual sum spent by the people of Newark for holiday and winter purchases, is sent out of town. Considering the thoroughness with which the great city stores advertise their offerings, and that there is always an element that likes to go to some bigger place to trade, this sum may be rather large.

Now if all that money could be kept at home, it would give a tremendous start on a new boom for Newark for the year 1920. The merchants would start the new year with a great confidence and a willingness to take hold of projects of expansion. It would mean more taxable property, bigger stocks in the stores, more support for all public enterprises.

There are some people who do not realize what a complete outfit of all kinds of holiday and winter stuff is carried right here in this town. These home merchants have been preparing for this trade for months past. They have seen representatives and samples from the best wholesale houses in America, and have had a chance to buy every possible line of fine and substantial stuff that the people could want.

And they have stocked up heavily on those lines. Realizing that the amount of money in circulation is very large, they have had faith in the future of local trade. They have laid in much larger stock than ever before.

When these public spirited business men of this community have thus made the effort to create here at home a completely stocked trading center, it seems disloyal not to break them up in their effort. The people who go away to trade are likely to pay more and get less substantial and attractive stuff. They can do better in their home town without bother or effort or expense.

## MUST A CHILD BE PALE?

Pallor, "Tired-outness" and Poor Appetite Almost Always Remedied by Peto-Mangan.

It Builds Up the Blood and Thus Improves the Appetite and Strengthens the Body.

There is but one legitimate excuse for a pale, run-down, listless child, and that is some serious disease of one or more of the vital organs, which, of course, needs the prompt attention of a competent physician. Unless such condition exists, the weak, white youngster who takes no pleasure in romping or playing can be very materially helped by a course of that thoroughly dependable blood enricher and general tonic, Gude's Peto-Mangan. This standard remedy for Anemia (Bloodlessness) has been continuously prescribed by physicians all over the world for nearly thirty years, to restore the weakened, watery blood to its normal condition, and thus improve appetite, add color to pale lips and cheeks and impart strength to the whole body. Gude's Peto-Mangan can be had in both liquid and tablet form (no difference in its effect), the liquid, of course, being preferable for young children. When buying Peto-Mangan, be sure the name "Gude's" is on the package. Without "Gude's" it is not Peto-Mangan.—ADV.

## "ONLY ONE THING BREAKS MY COLD!"

"That's Dr. King's New Discovery for fifty years a cold-breaker."

**NOTHING** but sustained quality and unflinching effectiveness can arouse such enthusiasm. Nothing but sure relief from stubborn colds and onrushes of new ones, grins, throat-irritations, coughs, and group could have made Dr. King's New Discovery the nationally popular and standard remedy it is today.

Fifty years old and always reliable, Good for the whole family, a bottle in the medicine cabinet means a short-lived cold or cough, 50c. and \$1.20. All druggists.

**Regular Bowels Is Health**  
Bowels that move spasmodically—free one day and stubborn the next—should be healthfully regulated by Dr. King's New Life Pills. In this way you keep the impurities of waste matter from circulating through the system by cleansing the bowels thoroughly and promoting the proper flow of bile.

Mild, comfortable, yet always reliable, Dr. King's New Life Pills work with precision without the constipation results of violent purgatives. 25c. as usual at all druggists.

## WELL KNOWN MAN OF ZANESVILLE LOST 60 POUNDS

Could Not Sleep, Nor Eat, Dragged Around in Half-hearted Way, Full of Pain and Aches, Friends Were Alarmed.

### Found Health In Drecto.

For the past 31 years Mr. John N. Johnson has been in the employ of the Courier Printing Co. of Zanesville, O., and held in high esteem by this concern. In a letter just given for publication, he says:

"I used to weigh 210 pounds, but fell off to 150. I had no energy to do a thing, but dragged myself around at my work. My stomach was full of gas all the time; bowels bound up; kidneys didn't act right; had dull, aching pains in my back; was very nervous and couldn't sleep. I knew my liver was inactive, for I often had dizzy spells; bad taste in my mouth, and a thick, coated tongue. I was in such poor condition that my friends became alarmed over my condition. I tried several remedies without any success, but this new medicine Drecto has sure gone to the bottom of my ails and brought relief."

"My appetite picked up right away, and my stomach digested the food without causing gas, pains left my back; my liver got active; also my bowels. I haven't had a dizzy spell lately, and gained six pounds on the first bottle of Drecto. It's great medicine and I feel better than in months. Feel full of energy and 'pep' now. Get Drecto in my advice to any one who reads this, and who is in the fix I was."

Drecto is composed of the juices and extracts of many herbal plants, and does not contain any iron, mercury, potash, acids or oils.

All good druggists sell Drecto and it is highly recommended in Newark by Evans' Cut-Rate Drug Store.—Adv.

## GRANVILLE

(Special to the Advocate.)

Granville, Nov. 17.—Two more games remain on the football schedule of the Denison team, Ohio university at Athens on November 22, and Kenyon at Newark on November 27.

On Friday evening the athletic association of Shepardson college gave the annual "All-Shepardson party" in Doane gymnasium. In the nature of a fancy dress affair. The girls dressed in Buster Brown and Mary Jane costumes and to the strains of an orchestra danced and staged several class stunts. The freshmen girls were effective in an Indian turn; the sophomores gave a reading with musical accompaniment, the juniors a "Pierrot and Pierrette" scene in appropriate costume, and the seniors put on a clever little play. Punch was served.

On Saturday evening 13 couples of Doane academy students chaperoned by Mrs. Odebrecht, drove in haywagons to the St. Clair farm on the Newark road where they enjoyed a bacon-bat. Returning to Granville at 8 o'clock they finished the evening with a "movie party" at the opera-house.

The committee on program for the big community Christmas celebration is composed of Rev. Manuel Breeze, chairman, Rev. R. C. Bowden, Miss Lily Jones, Mrs. Robert Biggs, Mrs. Theodore Johnson, Mrs. C. B. White, Mrs. Roe Morrow. The tree will be lighted Tuesday evening of Christmas week and details will be worked out by the committees in charge, acting in co-operation.

Denison football fans, who accompanied the team to Delaware Saturday, suffered a disappointment in the result of the game with O. W. U., which resulted in a 19-0 score for Wesleyan.

Mrs. T. P. Wright is in Imhazetown, N. J., for a visit at the home of her daughter, Mrs. Frank Roe.

Mr. and Mrs. E. W. Dorsey had a Sunday dinner guests Mr. and Mrs. C. W. Dorsey, their daughters Helen and Aline, Mrs. Belle Grove Wright, Mr. and Mrs. Burton Case.

Prof. and Mrs. Walter J. Livingston took dinner in Columbus Sunday with friends from Piqua, their home town, and enjoyed the unexpected pleasure of a visit with Dr. and Mrs. Emory W. Hunt, who were enroute from Chicago to Buckeye university.

Mrs. Livingston, her brother, George Bonham, and Dr. C. L. Williams were guests of Mr. and Mrs. J. W. Horner on a motor trip to Delaware Saturday to see the football game between Denison and Wesleyan.

Rev. Emanuel Breeze preached on the theme of "Secret Desires" Sunday morning in the Presbyterian church, and at the same hour Prof. F. G. Detweiler delivered a sermon on the "Laborers in the Vineyard," urging Christians to work for Granville as well as for China. Money is not the most important consideration after all, but the service rendered, he said.

Miss Anna Lyon will arrive in Granville this evening from Charleston, W. Va., and will leave again Wednesday on the return trip.

Mr. and Mrs. D. M. Beey, who has been in Oklahoma and Colorado for the past three months, returned yesterday to their home in Granville.

Dr. and Mrs. L. E. Davis entertained their nephew, Richard Raine of O. S. U., over Sunday.

Howard Grandstaff of the office training school in Columbus, was the guest over Sunday of Mr. and Mrs. O. P. Williamson at their home in Summit street.

## FORGOT HE CHANGED HIS HAT

Aged Restaurant Patron Makes Search for Straw Tepee, But Finds Own Derby.

Nice old gentleman in the restaurant, with a long line of hat trees running down the center. His dinner finished, he picked up his check and turned to the hat tree back of him and took down his hat, or the bar he had no doubt was his, but when from force of habit he looked inside of it to make sure he found that it wasn't his hat at all.

So he put that hat back on the tree and tried the next most likely one, but with the same result, and it was the same with all the hats on the tree, which he looked into one by one until he had looked into all excepting a black derby, which he did not inspect for what he was looking for was a straw.

But then, to leave no stone unturned, he took down that black derby and looked into it; and, good gracious! that was the hat he was really looking for; that black derby hat he was now looking into was his very own.

He smiled as he put it on. He had changed that morning from straw to felt and then had forgotten all about it.

## PITCAIRN ISLAND IS LONELY

Natives Occupying Spot, Peopled by About 150, Have Degenerated Through Inter-marriage.

Home is where the heart is, but the heart picks out some most unusual locations at times. Rather near as Pacific ocean distances go, to the Society islands, is Pitcairn island. It is certainly a lonesome spot, says the New York Sun, and as far back as 1836 the British authorities decided that it was no fit place for human habitation. So, the descendants of the mutineers of the "Bounty" who had settled there in 1790 were transferred that year to the more inviting Norfolk island. Several families, however, were so homesick that they went back to Pitcairn.

The population from these few families has now increased until about 150 people are on the island. Through inter-marriage and other evils of isolation these islanders have degenerated and their retrogression undoubtedly will end in their extermination.

**Phonograph Repeats Record.**  
When the needle comes to the end of its travel and the music ceases the owner of a phonograph equipped with a new attachment, says Popular Mechanics magazine, takes no heed, and a moment later the machine is playing the same air over again. This interesting result is achieved by means of a metal arm pivoted at a point outside the turntable, its inner end resting upon the projecting tip of the spindle. At the end of the record the traveling sound box engages a trigger which actuates a vertical screw, and the metal arm rises, lifting the needle from the record. The sound box slides back along the inclined arm to its starting position, the descending arm replaces the needle accurately in the outer groove, and the music goes on.

**Wealth in Waste.**  
The foundation of some of the most prosperous corporations were laid in utilization of what was formerly waste. The field is still open to the southern pine lumbermen. The annual cut averages 15,000,000,000 feet board measure, and for one foot that goes to the lumber piles two go to waste. Chemists would say this was not waste, but wasted raw material for vast quantities of paper, twine, bags, pulp boards, turpentine, rosin, pine oil, charcoal, tar, varnish, ethyl alcohol and acetic acid. Yet lumbermen throw away this great source of wealth and complain of the high cost of producing lumber.—Wall Street Journal.

**Myriad of Snowballs.**  
A singular phenomenon, reported to science by L. E. Woodman, was witnessed last March around Bangor and Orono, Maine. A four-inch fall of snow was followed by high wind, and occasional gusts caught up large flakes and rolled them over in the damp top layer, forming a myriad of snowballs from two inches to nearly two feet in diameter. The triangular trail of one was 36 feet long. The balls were largest on downward slopes, and a measured one had a horizontal diameter of 20 inches and a vertical diameter of 14 inches.

**Pursued.**  
Nathaniel Hawthorne's handwriting was so illegible that some of his manuscripts remained unpublished because nobody could read them. This was likewise true of Carlyle. The story is told of a type compositor who was employed by a London printing office because of a strong recommendation brought from Scotland. The first piece of manuscript given him to set was by Carlyle.

"My God!" said the new typesetter. "Have you got that man here too? I fled from Scotland to avoid him!"—Ladies' Home Journal.

**Ungrateful Duds.**  
"Do you know how to make a pan-dowdy?" asked her husband. "It was too good an opportunity to let go by." "Certainly," she replied. "All I have to do is to dress the pan in the kind of clothes you make me wear."

About four per cent of children are left handed from birth.

## One Dessert Free

### A Real-Fruit Dessert For Six People

Pineapple Juice

Comes condensed in a bottle in Pineapple Jiffy-Jell. We use the juice of half a Pineapple to flavor a pint dessert

Loganberry Juice

Comes condensed in a vial in Loganberry Jiffy-Jell. You get the juice of many berries in a pint dessert

This is an offer to buy you this week a Jiffy-Jell dessert for six people.

Many housewives don't know what Jiffy-Jell means to them. They know the old-style quick desserts, but not the new.

Jiffy-Jell brings you real-fruit flavors—not the artificial. Each package contains a bottle of fruit juice condensed.

We crush the real fruit, and much of it, to flavor a Jiffy-Jell dessert. A Jiffy-Jell dainty seems filled with fruit. Here you get fresh-fruit delights. And you get its healthful acids, needed every day.

### Try One Fruit Free

Present the coupon to your grocer this week. Buy two packages of any flavor and he will give you a full-size package of Jiffy-Jell in Loganberry or Pineapple flavor free. We will pay him for the free package. This will give you three packages for the price of two.

Jiffy-Jell comes in many fruit flavors, but the choicest are Loganberry and Pineapple. You will find in each package a bottle of the fruit-juice flavor in liquid form, condensed.

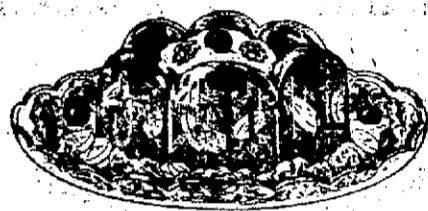

The Jiffy-Jell mixture is ready-sweetened, acidulated and in proper color. Simply add a pint of water as directed on the package, then the flavor from the vial, and let cool.

See what you get—a real-fruit dessert for six people. It will have a wealth of fruit. It will change your whole conception of quick gelatine desserts.

Note that this offer is made on two flavors—on Loganberry and Pineapple only. Your grocer has no right to offer another. We want you to know Jiffy-Jell at its best.

Then always remember that this real-fruit dainty is ever at your command. It will bring you the joys of real fruit. And it will cost you, when you buy it, only a few cents per dinner. It will cost you less than the fruit alone which we use to make the flavor.

This offer is for this week only. Cut out the coupon now. If your grocer lacks the flavors mentioned, go to another store.

**AUDITORIUM**  
Pleased With Mrs. Wiggs.  
Dainty Marguerite Clark, Paramount star was seen at the Auditorium yesterday to crowded houses. Miss Clark is seen in Alice Hegan Rice's great story "Mrs. Wiggs of the Cabbage Patch" and as Lovey Mary, Miss Clark has a role that shows her a wonderful screen star.

Lovey Mary is a sort of Tomboy who is an inmate of the Bradford Orphanage. She is beloved by the girls and boys of the institution because she mothers them and fights the monitors in their behalf. She has a battle with one of these one day and emerges victorious from the conflict. After a lapse of several years, Mary herself becomes a monitor and soon thereafter little Tommy, the child of Maggie Duncan, a former monitor of the institution who now is a circus woman, is brought to the orphanage and Mary is made the custodian of the infant. The little fellow burrows his way into Mary's heart so that when Maggie sends word that she is coming to take Tommy away, she flees with the child in a rainstorm.

"Mrs. Wiggs" is screened at the Auditorium today and is shown tomorrow (Tuesday) at the Alhambra together with Mrs. Charlie Chaplin in "Home." A big double program with no advance in price.

**Fiddlers Three.**  
The interest aroused by the announcement of the coming presentation of John Cort's musical comedy, "Fiddlers Three" which comes to the Auditorium theater tomorrow evening is very genuine. There are, from all accounts, a number of reasons for this. First and foremost is probably the singing of the leading role by "The Singing Star of Belgium," Miss Tavie Belge, who created a sensation among the musical critics of New York, Chicago and

class vaudeville houses. His eccentric dancing is known wherever stage dancing is known. Seats are now selling for the engagement tomorrow night.

**The Smarter Set.**  
"The Smarter Set" America's Greatest Colored Organization comes to the Auditorium for two performances Wednesday, a matinee and night performance. This year the company is said to be better than ever, Salem Tutt Whitney and J. Homer Tutt, two of the best comedians in their line on the road, head the company as usual and a large cast of singers, dancers, etc., are carried. This season their musical comedy in ten scenes is called "The Children of the Sun" and in nearly every city so far visited the papers have been loud in their praise of the company and attraction. A treat for the ear and eye is the way some style the attraction for the management. Recently gave carte blanche to the scenic artist and the costumers, for the stage effects, etc., look beautiful. A matinee is to be given Wednesday.

**Out of the Fog.**  
Nazimova in return to the Auditorium next Friday and Saturday will be glad news to her many admirers. This great star will be seen in her recent hit "Out of the Fog." The story is of a girl who paid the full penalty for her love, a girl whom death deprived of the father of her child before there was time for a marriage ceremony. Playing the role of this unhappy girl in the early part of the picture, Nazimova is next seen as Eve, the little daughter grown to the young womanhood on a lonely island in the Caribbean sea. Under the stern guardianship of her uncle who has never forgiven his sister for her unhappy love she is brought to life with no other human companionship than his own. Dressed in boy's clothes she roams the island until one day out

**REAL FARM VALUES!**

**EIGHTY-THREE ACRES** of some of the best farm land and one of the nicest farm homes on the National Pike, twenty-three miles east of Columbus. The quality of the land is unsurpassed—rich chocolate loam, undrained with gravel, tile not necessary, one half of land is rich black onion soil, well drained. The ordinary average for wheat is 35 bushels and the corn is making 90 bushels per acre this year. Good 8-room frame house, bath, combination furnace, gas lights; new double garage. Tenant house of five rooms, also on the electric line. Main barn is 30x10 with dairy barn attached; large shed 45x50 for machinery and stock. Other necessary outbuildings. Two flowing fountains, two wells, one cistern. Nice young orchard. If you want a choice farm and farm home see us about this one. Immediate possession can be had if desired.

**EIGHT-SIX ACRES**, twenty miles east of Columbus on E. Broad St., an ideal location for dairy farm, the entire acreage now seeded to grass. Story and half seven-room frame house, one well and cistern, barn 30x10 with 14-ft. shed attached, granary, and other necessary outbuildings. Three miles to good business town, churches, school, grain elevators, etc. Can be made an ideal country home. Will consider trade for city doubles. If interested in a proposition of this kind write or call us.

**SEVENTY-SEVEN ACRES**, one and one-half miles from one good business town and electric line and pike and two and one-half miles from another good town. Farm is located on good gravel road, in centralized school district, with mail route and telephone past house. Good seven-room frame house, two wells, cistern, wind pump, good cellar, new garage and granary, large barn 46x34 with 18-ft. shed attached and other necessary buildings, all in good repair. A large orchard, apple, cherry and pear trees. Owner is going to leave this farm and move on a much larger farm this fall so that immediate possession could be had if desired. About twenty tons of hay in mow and 200 shocks of corn can be bought. Farm land lays level, a very productive black and chocolate soil. A bargain at \$12,000.

Hundreds of Others.

SCENE IN "THE SMARTER SET," WHICH APPEARS AT THE AUDITORIUM WEDNESDAY, NOVEMBER 19TH

Boston when out of nowhere she suddenly displayed a vocal and dramatic genius that sent people scurrying to the back files of the musical files Who's Who. But all they learned was that Miss Belge was, from sixteen to twenty, a prima donna in the Antwerp Opera House, forced to leave at the time of the German invasion of Belgium, and after many vicissitudes found herself alone and penniless in New York. It was here that John Cort discovered her and dared to give her a chance. The result is that Tavie Belge is now one of the most sought after musical comedy stars of the country. Her beauty, her dramatic and musical gifts fit into the picturesque setting of this unusual operetta. The subtle sadness of her personality lends a quaint charm to the part of Anna the daughter of the picturesque old violin maker of Orenoma, who resorts to a trick to keep her from throwing herself away on a man whom she happens to love, but who doesn't happen to have enough money to keep her in violin strings. But there are also many other reasons, forty of them supplied by a beautiful chorus of real singers. Singing the leading male role opposite Miss Belge is Thomas Conkey whose voice has won him a position in musical comedy circles usually monopolized by tenors. Mr. Conkey sings the baritone role and lends to it not only vocal charm but the manly personality which is so often lacking in comic opera heroes. The comic part of the play is taken care of by Tom Dingle and Edna Morn. Mr. Dingle was for years a featured member of Ziegfeld Follies and the better

**The Wanderer.**  
Maurice V. Samuels, author of "The Wanderer" which plays the Auditorium for two days, Dec 1 and 2 admits that many lines of the play, almost half of the dialogue in fact, was taken by him bodily from different parts of the Bible. "When I started to write 'The Wanderer' I realized that the Bible would be the best authority for speech," says Mr. Samuels. "I have been a student of Biblical literature since my college days in California. I conceived the idea of making many lines from the Bible, and before writing the play I went through the Old and New Testament and carefully picked out several lines of speech which I must use in connection with the dialogue. I collected more than one thousand separate speeches. Then, as I wrote the play, I had these speeches neatly typewritten on slips of paper, and from time to time I would take one of these passages and use it in my dialogue."

"Of course, the speeches in the scene with Tisha, the vampire, were not inspired by the Bible, but I found the Scriptures of great aid in the writing of this play."

**Harvesters of Health**

Tuberculosis lurks in wait for persons who become run down in health. With their power of resistance diminished they fall easy prey to the death-dealing germs, which in many instances have been in their system since early childhood.

The young women in the picture are winning back health under ideal conditions at the Night and Day Camp in St. Louis, Mo. This camp is conducted by the St. Louis Tuberculosis Society, one of the thousand or more organizations allied with the National Tuberculosis Association. The approaching Red Cross Christmas Seal sale campaign will benefit this and thousands of other anti-tuberculosis activities.

Only "predisposed" cases are received at the Night and Day camp.

**AMUSEMENTS**

(Continued From Page 7)

er, little sisters and a true hearted boy-lover, and seeks diversion and a rich marriage among the codfish aristocrats of a summer party acquaintance, this photoplay so aptly named is an epic in human emotion.

When the word comes from her lover that her mother is seriously ill after caring for another daughter through a case of scarlet fever, Millie Rankin, a small town plumber's daughter, played by Miss Harris, is cut to the heart by her neglect. Surfeited at the hollow-ness of high society, the meaningless seeking after diversion, the worthless intrigues of its members and the insidious intriguing and immorality of the people with whom she has been in contact, Millie Rankin goes back to home and friends—a girl whose outlook on life has been changed. This production is shown today and tomorrow.

**"The Sacred Silence"**  
William Russell, a new Wm. Fox star, comes to the Fenberg's Alhambra for two days, beginning Wednesday and is screened in the sensational photoplay "The Sacred Silence." A strong cast, clever acting, elaborate scenic and exterior effects are also shown and in all a first class photoplay is promised Alhambra movie fans. For Friday and Saturday at that house Constance Talmadge is seen in "Marriage à la Mode."

**GRAND**  
**"Thirteenth Chair"**  
As there can be no suspense in a murder mystery when the climax is divulged, the management of the Grand theater, which will present the great melodrama, "The Thirteenth Chair," for three days commencing today, refuses to tell anything about the story other than that it is written by Bayard Veiller, author of "Within the Law," adapted for the screen and directed by Leonce Perrat, and enacted by a splendid cast headed by Yvonne Deiva and Creighton Hale and including Marie Shorwell, Christine Mayo, Marc McDermott, Walter Law, Suzanne Colbert and George Deneubourg.

To say that "The Thirteenth Chair" is a story that attempts to find the murderer of a man at a spiritualistic seance, during which the man seeking the murderer is killed in the same manner as the first, gives you some idea of the possibilities of the story for tenseness and mystification. To add greater mystery to the situation, there was someone present each time, but no actual witness to the deed. A young girl, who turns out to be the supposed lost daughter of the clairvoyant, is one of the many who are suspected of the crime.

**LYRIC**  
The Zarrow's Follies, a musical revue company, opened an engagement at the Lyric this afternoon. The company includes Ralph Smith, Luke Kalum, Marie Moore, Roy McClelland, Sue Burke and others, including a chorus of pretty girls.

**GEM**  
Tom Mix, the cowpuncher actor, wanted to catch an express train moving at the rate of 60 miles an hour. He didn't bother to tag it. He "roped" it just as he used to rope wild cattle on the ranges of Texas before he entered motion picture work. Mix did this stunt for his new drama "Tough Riding Romance" to be shown at the Gem theater next Wednesday. This is only one of the perilous stunts Mix does in the "Romance" which prove his long established skill, his utter fearlessness and self-confidence.

**Milady's Boudoir**

**Night Beauty Culture.**  
Night is the most valuable time for beauty culture. It is the time for erasing the lines of care of the day and making ready for a brilliant, glowing strength and of repairing nerves. In fact, it is the rest time for the whole body and brain.

If you wish to arise in the morning with a sunny face, go to sleep with a mind free from inharmonious. Put away all envy, hatred and malice. Set yourself at peace with the world, yourself and your fellow men. Take relaxation in simple exercise for tense mus-

cles and don't tumble into bed with tired thoughts, for you will, in such case, have no peaceful sleep.

"Twenty-five deep breaths will quiet the nerves, start the circulation and loosen the tension of body and mind. A warm bath will do as much good as an hour's sleep. Brush the hair with long, even strokes, breathing rhythmically, meanwhile and then massage the scalp."

"It will clear your head and take away that feeling of being bound with bands, which is the sign of a tired brain. Sit before a mirror in a strong light, and very carefully, smooth out all lines of worry, perturbation or unhappiness. Work over the lines about the eyes and across the brows with some simple lotion, of which the following is a very good one:

Half an ounce each of lanolin and coconut oil of sweet almonds. Melt together and while stirring, add half an ounce of orange flower water and a few drops of benzoin.

**Our Boys and Girls**

Calories are the important thing in child diet, and before long everyone, even the school child, will be selecting their meals on this basis. Education looking to this very end is being introduced into school lunch rooms, and some restaurants, where together with the menu and the price, the number of calories in each dish are set down, so that people may know what they are getting.

A suitable lunch for a school child is made of two cheese and nut sandwiches, a few dates and some butter-milk. Another good combination consists of two lettuce sandwiches made with mayonnaise, an apple and a square of gingerbread.

As a midday meal for the kiddies a good soup is made from peas or beans strained, beef stock thickened with barley, rice, oatmeal or farina. Cakes may be served, or toast or bread over a day old. Give them the choice of two of the following vegetables: baked potatoes, stewed onions, celery, carrots, cauliflower tips or asparagus. Any of the latter may be made attractive by serving a white sauce with it.

**Everyday Etiquette**

"Please tell me the best form to use when introducing women to each other. Whose name should be mentioned first?" asked Ada.

"The best and simplest form is this: 'Miss Smith, let me present Miss White.' Where there is a noticeable difference in the ages of the women, the younger is introduced to the elder," answered her mother.

**11 HENS IDLE; NOW LAY 221 EGGS A MONTH**

Mrs. Young Almost Gave Up Raising Chickens. Then She Tried This Plan.

"When I accepted your offer and tried Don Sung, I had been getting 1 or 2 eggs every other day. The next month, using 50 cents worth of Don Sung, my 11 hens laid 221 eggs. I almost gave up raising chickens, but now I have decided to raise as many as I can."—Mrs. P. C. Young, Bellefonte, Pa.

Feed is too expensive to waste on idle hens. You can easily start your hens laying and keep them laying, even in coldest winter. To prove it, all you need do is accept our offer, as Mrs. Young did.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, tell us and your money will be promptly refunded. Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell-Dugger Co., 284 Columbia Bldg., Indianapolis, Ind.

Were New Carlisle Man's Painful Position—Banished By Bottle of Nerv-Worth

Genuine weight in this statement. Mr. Lacy's many friends read with keen interest his account of Nerv-Worth's work in his behalf, as stated to Springfield's Nerv-Worth druggists: "Troupe Drug Co.—For a year I have been so troubled with severe, splitting headache and an acid stomach that I could hardly sleep. Could not eat with satisfaction. After taking one bottle of Nerv-Worth I can eat and sleep as well as anyone and I can cheerfully recommend it to anyone who suffers with stomach trouble or a run-down system."

**Pietists.**  
This religious sect was also called "Separists." It was a sect of the Lutheran church which preferred private to public worship. The founder was Spencer of Leipzig and his home was called "Collegia Pietas." Because his disciples met there. Ordained clergymen had no marked precedence and anyone was permitted to address the assembly, as among Quakers.

**Have Wrong Idea.**  
People are often more concerned about creating a favorable impression than about the kind of person they wish to be considered. It is like demanding a beautiful photograph without regard to the features of the original.

**Refreshing flavor and fragrance and unusual mellow-mildness make Camel Cigarettes instantly and permanently likable!**

CAMELS are a cigarette revelation! They are a smoke delight! They answer the cigarette question as it has never before been answered. Your taste will prove that!

Camels are an expert blend of choice Turkish and choice Domestic tobaccos which you will greatly prefer to either kind of tobacco smoked straight. Your test proves that!

This expert blend brings out Camels' wonderful cigarette qualities. It eliminates any unpleasant cigarette aftertaste or any unpleasant cigarette odor! It also makes possible Camels' enticing mildness while retaining the full "body" of the tobaccos.

No matter how much you like Camels and how liberally you smoke them, they will not tire your taste!

For your own satisfaction compare Camels with any cigarette in the world at any price!

**Remember This.**

One advertisement will not do the work, neither will two advertisements. It takes continuous advertising to bring home the bacon. That is the reason our large institutions are larger. They were small businesses a few years ago, but through continuous advertising they have grown to large institutions. Think this over.

**CENTRAL POWER CO.**  
**CHANGES ITS NAME**  
At a meeting of the stockholders of  
the Central Power company held in  
Newark Saturday, the name of the com-  
pany was changed to the Ohio Power  
company.  
Manager E. T. Wagenhals of the  
company when asked the reason for the  
change stated that there was a Cen-  
tral Power company, operating in the  
state of Nebraska and that the Nebras-  
ka company had been advertised as  
paying no dividends on their stock.  
Their bonds are handled in the same  
manner as the local company and the  
two were confused.  
All the holdings of the company in  
the state will come under the new name  
the Ohio Power company.

New York state the law re-  
quires the tow to be no more than 16

ficient. When this cable is doubled,  
it is strong enough to make any car  
say "Uncle."

Even if you are a good driver, you  
may in order to save someone's life,  
steer yourself into the ditch or you  
may get into deep snow or stalled  
in a sandy road where you cannot  
get traction. So if you are wise, you  
will always carry a neat little 25-foot  
wire cable under your seat. It is  
strong enough to move a house, and  
small enough so that the room it  
takes will not count.

Where the rear wheels have  
dropped into a deep hole, or have  
sunk to the axle where the wheel  
can get no grip and where no other  
car is in sight to help you, you can

## BOWSER IN GOOD TRIM FOR MATCH

**Will Meet Greek Who Has Advantage in Weight of Ten Pounds — Preliminaries Attractive.**

The Bowser-Plato wrestling match at the Auditorium theater on Thursday evening promises to be a classy affair for the local champion is training daily for the grueling which he will undergo with the Greek who weighs 185 pounds and who has bested some of the best mat artists of the eastern cities.

Bowser weighs 175 pounds and he is in the best of condition as was demon-  
strated in his last match. It is pre-  
dicted by some of the best informed  
fans that the local champ and Plato  
will stage a fast and classy match.  
Both wrestlers are in the best of con-  
dition. Bowser says he is assured of  
several good matches in the east if he  
beats the Greek and he will do his ut-  
most to win the decision.

The preliminaries will be up to the  
usual standard but the semi-final is the  
one that will attract almost as much  
attention as the main bout. Bill Gal-  
agher will try conclusions with Tom  
Polious, Greek welter-weight and the  
event will be best two falls in three,  
with a 30 minute time limit. It prom-  
ises to be fast and furious from the tap  
of the gong.

Reservations for stage seats can be  
secured at the Bowser gym and tickets  
for the main Auditorium floor will be  
placed on sale Tuesday at the box of-  
fice of the theater.

## HUNTERS BAG LIMIT ALLOWED BY NEW LAW

The hunting season opened Saturday  
and hundreds of rabbits were slaught-  
ered by the hunters, who were out in  
search of game. Farmers report that  
dozens of squads crossed their lands,  
usually in squads of three. They could  
be seen on every road in the county  
and nearly every one bagged the quota  
of ten allowed by law. No depredations  
have been reported and neither have  
any accidents taken place in this vic-  
inity. Many land owners have given  
the hunters permission to hunt over  
their farms as long as they are careful  
about handling their firearms when  
there is stock in the near vicinity.

## THREE POINTS BY HARLEY WINS GAME FOR O. S. U.

Madison, Wis., Nov. 17.—Ohio State  
and Wisconsin waged one of the bitter-  
est football contests of the season be-  
tween these two intense rivals Satur-  
day afternoon, and after the veritable  
catfight extending over 60 minutes of  
play had been ended, it had to be the  
common verdict that Chic Harley, the  
leader of the Ohioans, had written an-  
other splendid chapter for himself in  
the history of Ohio State football.  
The final score of this fast and hard  
effort was 3 to 0, and it was in the  
fourth quarter that Harley stepped  
back behind the line and measuring  
with accuracy his effort, sent a drop  
kick catapulting across the bar and be-  
tween the uprights that scored the only  
points of the game.  
Ohio had a peculiar strategy Satur-  
day in that Harley was employed very  
little at carrying the ball the first three  
quarters, his work being mainly a  
cougar like defense and to do the kick-  
ing for his team and make interference  
for his men against the alert Wiscon-  
sin ends, Weston and Meyers.  
But in the fourth quarter his oppor-  
tunity came and he not only scored the  
three points of the game, but made it  
possible by a long rolling 70 yard punt.  
At another time in the final quarter  
he made a wide run across the field  
and hurled a perfect forward pass to  
Stinchcomb waiting behind the Wiscon-  
sin goal, but this was not allowed on  
the technicality that Harley was not  
five yards behind the line of scrim-  
mage, as the rules require, when he  
shot the pigskin 25 yards into the  
waiting arms of his teammate. This  
ruling was made by Referee Magdis-  
son, and was one in which he was  
very exacting in his ruling.  
It was a finely drawn conclusion, say  
the least, and was all that stood in  
the way to a 10 to 0 victory instead of  
a 3 to 0 one.  
Up to this final quarter the goals of  
either eleven were really endangered  
but once, and that was in the first  
period when the defense of Wisconsin  
held the Ohioans back for big losses and then  
Ohio State went crumpling back to its  
11 yard line before a penalty kicked on  
the Badgers for holding furnished some

## WESLEYAN BEATS DENISON SQUAD

**Successful Forward Passes By Big Red Team Fail to Produce Scores Needed to Win.**

Delaware, Nov. 17.—Ohio Wesleyan  
won the homecoming game Saturday  
from Denison by a score of 19 to 0.  
It was a clear case of superiority. Wes-  
leyan was able to gain by line plays  
and long passes.

Coach Ewing opened the whole bag  
of tricks against the visitors and it  
was these that bewildered the oppon-  
ents. Denison used forward passes  
twenty-two times for gains amounting  
to 116 yards. Wesleyan gained 50 yards  
on passes. The punting of Owens was  
matched by Groves and Steger. The  
former averaged 40 yards and the latter  
two named 35 yards. The first touch-  
down came after a long pass to Colton.  
This gained 35 yards for Wes-  
leyan. In the third quarter Wesleyan  
scored the third and final touchdown.  
The line-up:

## PIRATES AND MACKS PLAY TO TIE SCORE

The Columbus Pirates held the strong  
McDaniels to a 0 to 0 tie at Mount  
Bulldozers Park Sunday.

The soft and slippery ground made  
fast work of both teams almost im-  
possible except for an occasional for-  
ward pass by the Macks, which were  
good for long gains. The Pirates were  
forced to punt but once and on this  
occasion Stock punted 70 yards.

Hager, captain of the Macks, was the  
only man that could carry the ball for  
any gain, and he got loose but twice  
for 25 yards.  
Iga, and Sullivan and Doty for the  
Pirates and Hager, Winters, Greer,  
Dennison Johnson and Dunn for the  
Macks were the star players. Line-up  
and summary:

## KENYON LOSES GAME TO WOOSTER ELEVEN

Gambier, Nov. 17.—Wooster kept her  
escutcheon clean for the 1919 season  
Saturday by trimming Kenyon, 25 to 0.  
The scoring of the visitors fell one  
touchdown short of their anticipated  
five.

Wooster showed the ball over for a  
count early in the first period. The  
second quarter was scoreless, although  
Wooster had the better of the ground  
gaining argument.  
In the second half Wooster won de-  
cisively, putting over three more touch-  
downs two of them in the final period.

## When You Buy A "Wooltex" Coat

You can be assured you are getting not only dependable fabrics, but also the latest styles and the finest tailoring.

**THIS WINTER THE DRESSIER COATS**  
**FAVOR RICH, SOFT MATERIALS**

Do you remember when winter coats used to be made of thick, bulky materials that seemed necessary to keep out the cold? But this is a winter of soft luxurious fabrics that will keep you just as snugly warm and perhaps even more so and at the same time are so much lovelier and more pleasing to wear. And not to be overlooked, are the handsome linings—these add much to the attractiveness of the season's styles, which remain straight and slender, in spite of the fact that they are still warm and roomy.

You have seen many choice Wooltex models illustrated in the various magazines. We want you to come in and see the many attractive models among our Wooltex Coats—see for yourself what the Wooltex label stands for—style, fabric and tailoring.

The newest fashion notes are shown in all the Betty Wales Dresses which we are displaying. Come in and see them.

## Edinburgh Landmark Gone.

An interesting bit of old Edinburgh, dating back about 1800, has been burned. The destroyed building, which consisted of a single story and attic, was one of the landmarks of the Holyrood area. It was the old Yew Tree tavern, and stood inside the bounds of the Holyrood sanctuary for debtors, within which, in days of yore, the fugitive was free from the attentions of his creditors.

## Only One.

A little girl had a twin brother and sister. Now, she was used to the cat having kittens and only one of the kitten family being kept. So when her father brought the twins down to show her she gazed at them earnestly for a small space of time, then said, "Daddy, I think we'd better keep that one." Pointing, as she thought, to the prettier one!

## Fear in the Child.

"There is a world of truth in Prof. Angelo Mosso's emphatic declaration: 'Every ugly thing told to the child, every shock, every fright given him, will remain like minute splinters in the flesh, to torture him all his life long.'"  
—"Psychology and Parenthood," by H. Addington Bruce.

## Times Have Changed.

It is said that the post office in Philadelphia will lose \$15,000 a day as the result of going from the three-cent back to the two-cent rate for letters. That happens to be exactly the sum which Benjamin Franklin was able to turn over to Great Britain in annual revenues from the post offices in the colonies in 1774, after he had put in four years of hard work in creating a postal system.

Electric bulbs lighted from a dry battery form animals' heads on a recently patented muff for women.

What period do you think I recall most frequently and most willingly in my dreams? Not the pleasures of my youth; they are too rare, too much mingled with bitterness and now too distant. I recall the period of my seclusion, of my solitary walks, of the fleeting but delicious days that I have passed entirely by myself, with my beloved dog, my old cat, with the birds of the field, the birds of the forest, with all nature and her inconceivable Author.—Rousseau.

## Remarkable Change.

Newspaper Article.—"He allowed himself to be drawn, as if by some supernatural centrifugal force, toward the center. Centrifugal force acted in just the opposite manner when we were studying—but, of course, everything is upset nowadays.—Boston Transcript.

## Making Billiard Balls.

Experience has shown in the making of billiard balls that, as it dries, ivory shrinks, so they are turned in the rough and kept in a warm room for a long time—sometimes two years. Then after shrinking they are turned again.

## To Measure Airplane Mileage.

Airplane motor revolution meter. Have been invented by an Englishman to enable an aviator to estimate his speed and distances traveled.

## In the Days of Beaver Hats.

In the olden days in the United States soon after the Revolutionary war, a good beaver hat became a kind of family heirloom, and was handed down from father to son. For some strange reason it was considered to be rather frivolous and extravagant to be seen wearing a new beaver hat, and it was the custom when a man bought one to leave it out in stormy weather before wearing it, to "take the newness off."

## Bananas.

The banana is a perennial herbaceous plant, growing from year to year from an underground root stock with a stem or stalk from 10 to 15 feet high above the ground. The plant has drooping leaves, but no branches like fruit trees of the north countries. Each stalk produces one large cluster of fruit. After fruiting, the stalk is cut down to the surface of the ground and grows up again from the root.

## Garden of Eden in Mexico?

A prehistoric race that lived in Mexico centuries before Cortez ever arrived there to crush the power of the Aztec kingdom, was a civilized people who were flooded out of existence by a deluge that swept the valley of Mexico, as relics picked up near the capital city prove, and some writers assert that Mexico was the site of the beginning of man and that it was in this valley that Noah set forth for his 40-day tour of the flooded world.

## Ostrich a Monogamist.

In the wild state ostriches pair in the spring. Once paired they remain mated "till death doth them part." The female makes a shallow hollow in the ground away from water courses for her nest. During the sitting period the male remains on the nest by night, the female by day.

Knowledge is power. But on the other hand many a man's reputation is based upon what isn't found out about him.

## Meaning of "Selah."

The word Selah, which occurs so frequently in the Psalms, is usually believed to be a direction to the musicians who chanted the Psalms in the temple. Mattheson, the great musical critic, wrote a book on the subject, in which, after rejecting a number of theories, he came to the conclusion that it is equivalent to the modern "da capo," and is a direction that the air or song is to be repeated from the commencement to the part where the word is placed.

## The Planet Carnegie.

Mr. Carnegie shared an almost unique honor with the Empress Eugenie in having a planet named after him during his lifetime. Two of the remarkable family of minor planets situated between the orbits of Jupiter and Mars were named Carnegie and Eugenia.—Westminster Gazette.

## History Repeats Itself.

Briggs and Fowler were talking of the great wars fought in the days when the world was considerably younger. "You know," said Briggs "it always seems to me that those old warriors were very much like our modern financiers." "What do you mean?" asked Fowler. "Well they were always investing some one else's capital, weren't they?"

## Lavender Smokers.

Long before tobacco was known or smoked, sweet lavender was a favorite smoking mixture. Pipes have been dug up in Roman settlements, adorned with base-reliefs picturing the lavender plant. From which it is surmised that the Romans smoked lavender, which, according to writers of the time, is said to produce a feeling "active, ardent, and vigorous."

Many a man never knows which side of the fence he is on till he falls off.
